1. Introduction

This document presents the Functional Requirements for the Flower Store Website, extracted and derived from a user questionnaire completed by key stakeholders including customers who buy flowers online, florists, and flower shop owners.

The questionnaire identified user roles, purchasing behaviour, pain points, and desired features. These have been systematically converted into structured functional requirements below.

Questionnaire Source:
https://docs.google.com/forms/d/1bZ6Tr7LnBZludKkdfLpnMHfBvht2KYdkm3F7fIddonw/edit#responses

2. Stakeholders Identified

The following user groups were identified from the questionnaire:

- Customers who buy flowers online
- Florists
- Flower shop owners

3. Functional Requirements

3.1 User Account & Role Management

FR#	Requirement Name	Description	Priority	Source

FR-01	**User Registration**	The system shall allow customers, florists, and shop owners to register an account with their role type.	**High**	Q1: Role
FR-02	**User Login**	The system shall provide a secure login mechanism for all registered users.	**High**	Q1: Role
FR-03	**Role-Based Access**	The system shall display different dashboards and features based on user role (customer, florist, owner).	**High**	Q1: Role

3.2 Product Catalogue & Search

FR#	Requirement Name	Description	Priority	Source
FR-04	**Search by Flower Type**	The system shall allow users to search for flowers by type (e.g. roses, lilies, tulips) using a search bar.	**High**	Q6: Features
FR-05	**Filter by Occasion**	The system shall allow users to filter flower products by occasion: Birthday, Eid, Wedding, and Other.	**High**	Q3: Occasions
FR-06	**High Quality Images**	The system shall display high-resolution product images for each flower item to aid purchase decisions.	**High**	Q5: Problems
FR-07	**Product Details Page**	Each flower product shall have a dedicated page showing name, price, availability, and description.	**High**	Q5: Problems

3.3 Online Ordering System

FR#	Requirement Name	Description	Priority	Source
FR-08	**Add to Cart**	The system shall allow customers to add flower products to a shopping cart before checkout.	**High**	Q4: Ordered Online

FR-09	**Wishlist**	The system shall allow customers to save flower products to a wishlist for future purchase.	**Medium**	Q6: Features
FR-10	**Order Tracking**	The system shall provide real-time order status updates to customers after purchase.	**Medium**	Q4: Ordered Online
FR-11	**Order History**	The system shall allow customers to view their past orders and re-order from history.	**Medium**	Q4: Ordered Online

3.4 Delivery Management

FR#	Requirement Name	Description	Priority	Source
FR-12	**Same-Day Delivery**	The system shall offer a same-day delivery option rated as important by users (avg. 4/5). This must be bookable at checkout.	**High**	Q7: Same-Day
FR-13	**Delivery Cost Display**	The system shall clearly display delivery charges before checkout to prevent cart abandonment.	**High**	Q5: Problems
FR-14	**Delivery Scheduling**	The system shall allow customers to choose a preferred delivery date and time slot.	**Medium**	Q7: Same-Day
FR-15	**Delivery Address**	The system shall allow users to save multiple delivery addresses to their account.	**Medium**	Q4: Ordered Online

3.5 Payment System

FR#	Requirement Name	Description	Priority	Source
FR-16	**Multiple Payment Options**	The system shall support multiple payment methods including credit/debit card, JazzCash, EasyPaisa, and cash on delivery.	**High**	Q5: Problems

FR-17	**Secure Checkout**	The system shall encrypt all payment data using SSL/TLS to ensure transaction security.	**High**	Q5: Problems
FR-18	**Payment Confirmation**	The system shall send an email or SMS confirmation to the customer after successful payment.	**Medium**	Q5: Problems

3.6 Promotions & Discounts

FR#	Requirement Name	Description	Priority	Source
FR-19	**Special Event Discounts**	The system shall allow admins to create and apply discount codes for special events such as Eid, Valentine's Day, and weddings.	**Medium**	Q6: Features
FR-20	**Discount Display**	The system shall visibly display active promotions and discount offers on the homepage and product pages.	**Medium**	Q6: Features

3.7 Mobile Compatibility

FR#	Requirement Name	Description	Priority	Source
FR-21	**Mobile-Friendly Design**	The website shall be fully responsive and optimised for mobile devices. This was marked as 'Must Be' by most respondents.	**High**	Q8: Mobile
FR-22	**Touch-Friendly Navigation**	The system shall provide large, tappable buttons and touch-friendly menus for mobile users.	**High**	Q8: Mobile

3.8 Admin & Shop Owner Features

FR#	Requirement Name	Description	Priority	Source

FR-23	**Product Management**	Shop owners shall be able to add, edit, and remove flower products from the catalogue.	**High**	Q1: Owner Role
FR-24	**Order Management**	Shop owners and florists shall be able to view and manage incoming orders.	**High**	Q1: Owner Role
FR-25	**Discount Management**	Admins shall be able to create, edit, and expire promotional discounts.	**Medium**	Q6: Features

4. Requirements Summary

Total Requirements	High Priority	Medium Priority	Low Priority
25	15	10	0

Priority Key:

- **High — Must be implemented for the system to be usable**
- **Medium — Should be implemented in next release**
- **Low — Nice to have, can be deferred**
